

RESOLUTION NO. 271

A RESOLUTION AUTHORIZING THE TOWN OF MOUNT CARMEL TO PARTICIPATE IN THE 2003 NATIONAL CENTER FOR MISSING & EXPLOITED CHILDREN (NCMEC) AND THE LOST CHILD ALERT TECHNOLOGY RESOURCE (LOCATER) GRANT PROGRAM .

WHEREAS, the safety and well being of children in the State of Tennessee and in the Town of Mount Carmel are of the greatest importance; and

WHEREAS, the U.S. Department of Justice seeks to enable The National Center for Missing & Exploited Children (NCMEC) to offer computer technology at no cost to Law Enforcement Agencies whose responsibilities include investigating incidents of missing or abducted children. The project is called LOCATER, Lost Child Alert Technology Resource.

WHEREAS, the Town of Mount Carmel now seeks to participate in this important program; and

WHEREAS, the public welfare requires it;

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF MAYOR AND ALDERMEN OF THE TOWN OF MOUNT CARMEL, TENNESSEE, as follows:

Section I. That the Town of Mount Carmel is hereby authorized to apply for the U.S. Department of Justice's 2003 National Center for Missing & Exploited Children (NCMEC) and the Lost Child Alert Technology Resource (LOCATER) Grant Program, at no cost to the Town, and upon award, to accept same;

Section II. The Mayor shall do all things necessary to validate and make the agreement attached hereto legally binding including, but not limited to, affixing his or his designee's signature thereto;

Section III. This Resolution shall take effect upon its passage the public welfare requiring it.

Duly passed and approved this the 26 day of November, 2002.

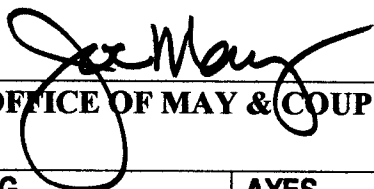

GARY W. LAWSON, Mayor

Suggestions for the Placement of the LOCATER™ hardware

In order to offer systems to as many law-enforcement agencies as possible, NCMEC will not be able to offer agencies more than one **LOCATER™** system. Therefore, the placement of the system is crucial.

There are two primary considerations when deciding where to place the system. The first is placing the system where it is easily accessible to the personnel who may need to quickly create and send a missing child poster. Remember, when a child is reported missing, the first few hours are critical.

The second consideration is receiving missing child posters. The **LOCATER™** system will automatically sound an alert message whenever another agency sends a missing child poster to your agency, requesting your assistance in searching for that child. Therefore, we ask that **LOCATER™** systems be placed in an area staffed at all times.

Furthermore, **LOCATER™** is capable of drafting a wide variety of posters, such as crime alerts, wanted posters, vehicle and property posters, lineup cards and others; access is essential.

Where does your agency plan to place the system? _____

Where should NCMEC ship the System? _____
(Street)

Receiving Persons Title/Name _____
(City, State, Zip)

**COOPERATIVE AGREEMENT
BETWEEN
THE NATIONAL CENTER FOR MISSING & EXPLOITED CHILDREN**

(Print name of Agency)

LOST CHILD ALERT TECHNOLOGY RESOURCE (LOCATER™)

BACKGROUND

The National Center for Missing & Exploited Children (NCMEC), under the terms of Cooperative Agreements 2000-MC-CX-K020 between NCMEC and the U.S. Department of Justice, has been granted the authority and responsibility to develop and deliver standardized technology, technical assistance, support to law-enforcement agencies to aid in the recovery of missing children and the rapid dissemination of information in order to better protect children.

The cooperative agreement provides financial resources to develop and offer unique poster-creation software called LOCATER™ (LOST CHILD ALERT TECHNOLOGY RESOURCE). The necessary hardware, software, and support services for each LOCATER™ system (hereinafter "System") will be purchased, tested, and configured by NCMEC. A System is a package of all hardware, software and support services offered in response to this Cooperative Agreement.

The purpose of this document is to establish a cooperative relationship between NCMEC and individual participating law-enforcement agencies to govern the use of each System provided by NCMEC.

COOPERATIVE AGREEMENT

This cooperative agreement is made and entered into by and between the National Center for Missing & Exploited Children (hereinafter referred to as (NCMEC) and the above named governmental agency (hereinafter "Agency"). It is executed in consideration of the mutual promises of the parties contained herein who hereby agree as follows:

NCMEC agrees to:

1. Provide the Agency with computer hardware, software, and support services listed in attachment A, free of charge. Title to all equipment with restrictions as to use shall transfer to the Agency upon acceptance and installation of a complete System in satisfactory working order.
2. Provide written documentation to setup the System and operate the software. No on-site training is offered under this Agreement.
3. Provide ongoing technical assistance on the use of the System. NCMEC may make use of an outside vendor to provide such technical assistance.
4. Provide upgrades and enhancements to the software as may be required or advisable from time to time.
5. Provide a single point of contact (Project Manager) within NCMEC who shall have full responsibility and authority to coordinate and implement the provisions of this Cooperative Agreement.

The Agency agrees to:

1. Provide suitable space to safely house the equipment and ensure that all LOCATER™ hardware, software, and documentation remain together for the purpose of sending and receiving information regarding missing children.
2. Ensure that the System remains turned on, on-line and connected to a secure electronic data center designated and operated by NCMEC. This is necessary to receive alert messages from other agencies that may send a missing child poster alert.
3. Comply with all reasonable requests from other law-enforcement agencies, as well as NCMEC, to aid in the search and recovery of missing children.

4. Assist non-participating agencies with creating missing child posters or transmitting missing child images to NCMEC for poster creation for NCMEC's web site.
5. Honor all reasonable requests from NCMEC to collect information regarding System usage necessary to evaluate the overall LOCATER™ program effectiveness and efficiency.
6. Maintain all equipment in good working condition and ensure the System is adequately supplied. The Agency is responsible for procuring all expendable items (office supplies) including but not limited to diskettes, printer paper and ink cartridges. The Agency is responsible for all repairs not covered in the three-year manufacturers' service agreements. The Agency is responsible for any and all repair expenses to the System that are the result of misuse, abuse, or negligence.
7. Ensure that no alterations are made to the System that would impair the System's capability to send and receive information regarding missing children. NCMEC cannot support self-installed hardware or software, nor can it be responsible for any negative repercussions that may result from adding such software or hardware, or substituting or replacing software or hardware that does not conform to System specifications.
8. Provide and fund, at the Agency's expense, a dedicated analog telephone line when dialup service is needed for access to NCMEC's secure electronic data center and for the transmission and receipt of posters. This will normally occur when the Agency must connect to the data center by a means other than through a statewide area network (WAN) or local area network (LAN) that connects to NLETS.
9. If agencies use LOCATER™ to send posters to facsimile machines through the broadcast fax service arranged by NCMEC, the Agency shall be

responsible for funding its use.

10. Select and designate several employees to operate the System, and allow them sufficient time to train so as to become proficient using LOCATER™.

A training Manual will be provided for learning to create, print, send and receive posters and information.

11. Provide an Agency primary point of contact to NCMEC who shall have the responsibility and authority to coordinate and implement the provisions of this Cooperative Agreement.

GENERAL PROVISIONS:

1. This Cooperative Agreement shall be in effect for 3 years from the date of execution. After the expiration of this Cooperative Agreement, NCMEC may reduce or eliminate support services listed in Attachment A.

2. Either party may cancel this Cooperative Agreement on thirty days written notice. If this Cooperative Agreement is canceled, the Agency agrees to return all Systems and software components to NCMEC.

3. This Cooperative Agreement shall be governed and interpreted in accordance with the laws of the Commonwealth of Virginia without regard to principles of conflict of laws. Venue for actions in connection with, this Cooperative Agreement shall be proper only in a court of competent jurisdiction within the Commonwealth of Virginia.

Mount Carmel, TN 37645

Dear Chief Jeff Jackson:

Thank you for your interest in the *LOCATER*™ Program at The National Center for Missing and Exploited Children. We are pleased to inform you that your agency has been selected to receive a *LOCATER*™ system.

Your order will be placed with the Dell Corporation in approximately 90 days, at which time you will receive a notification by mail. If changes arise regarding the shipment location or technical contact person indicated on your application please notify the *LOCATER*™ information line at 1-877-446-2632 ext. 6389. Thank you in advance for joining us in this effort to bring more children home quickly and safely.

Sincerely,

Charlie Apps

Chief Jeff Jackson
Mount Carmel Police Department
P.O. Box 1421
Mount Carmel, TN 37645

Dear Chief Jackson,

The Tennessee Bureau of Investigation (TBI) and National Center for Missing and Exploited Children (NCMEC) would like to provide you with information on the LOCATER system. The LOCATER system is the basic computer hardware and software systems used to create the AMBER ALERT poster and disseminate to law enforcement agencies and the media in the event of an **AMBER ALERT ACTIVATION**. This system is designed to create posters of stranger abductions of children (AMBER ALERTS), missing adults/children, crime alerts, line-up spread, fugitive and vehicle posters and send them immediately through e-mail, fax or printed function to other law enforcement agencies in our state.

The LOCATER system is being offered free of charge to state and local law enforcement agencies through a Bureau of Justice grant. NCMEC has received federal grant monies in order to provide this system to law enforcement agencies. The LOCATER system includes a Pentium III processor, 128 MB Ram, 17" monitor, scanner, color printer and speakers. In addition, any agency that does not have a network system or Internet service, are given free Earthlink dial-up Internet access for three years, and a computer desk. The LOCATER system has self-prompting instructions and once you turn on the system, you are basically walked through the process to create a poster in less than a few minutes.

The National Center has already received Tennessee applications from 75 Sheriffs, 39 Police Departments, 8 TN Highway Patrol Offices, 4 County 911 Emergency Offices and 7 TBI offices. The new LOCATER system will provide a connection to send poster and photos via e-mail at no cost to law enforcement agencies across our state in a fraction of the time. One example of its use, in the event of a fugitive escape, stolen vehicle or a missing child/**AMBER ALERT**, your agency could create a poster and e-mail it in less than ten minutes to every law enforcement agency in the state. The National Center for Missing and Exploited Children has informed our agency that they should be able to approve and provide the LOCATER to any Tennessee law enforcement agency as soon as they receive the LOCATER Application Form and Cooperative Agreement.

INTERNATIONALLY ACCREDITED SINCE 1994

Should you have any questions concerning the LOCATER system please contact either, NCMEC Program Manager Charlie Apps - (730) 274-3900/ Jim Samuel - (877) 446-2632 or TBI Special Agent Jerri Powell - (615) 744-4558. Please return your completed application to SA Jerri Powell, TBI, 901 R.S. Gass Blvd., Nashville, TN, 37216.

Sincerely,

A handwritten signature in black ink, appearing to read "Brooks Wilkins".

Brooks Wilkins
Special Agent In Charge

**COOPERATIVE AGREEMENT
BETWEEN
THE NATIONAL CENTER FOR MISSING & EXPLOITED CHILDREN**

(Print name of Agency)

LOST CHILD ALERT TECHNOLOGY RESOURCE (LOCATER™)

BACKGROUND

The National Center for Missing & Exploited Children (NCMEC), under the terms of Cooperative Agreements 2000-MC-CX-K020 between NCMEC and the U.S. Department of Justice, has been granted the authority and responsibility to develop and deliver standardized technology, technical assistance, support to law-enforcement agencies to aid in the recovery of missing children and the rapid dissemination of information in order to better protect children.

The cooperative agreement provides financial resources to develop and offer unique poster-creation software called LOCATER™ (LOST CHILD ALERT TECHNOLOGY RESOURCE). The necessary hardware, software, and support services for each LOCATER™ system (hereinafter "System") will be purchased, tested, and configured by NCMEC. A System is a package of all hardware, software and support services offered in response to this Cooperative Agreement.

The purpose of this document is to establish a cooperative relationship between NCMEC and individual participating law-enforcement agencies to govern the use of each System provided by NCMEC.

COOPERATIVE AGREEMENT

This cooperative agreement is made and entered into by and between the National Center for Missing & Exploited Children (hereinafter referred to as (NCMEC) and the above named governmental agency (hereinafter "Agency"). It is executed in consideration of the mutual promises of the parties contained herein who hereby agree as follows:

NCMEC agrees to:

1. Provide the Agency with computer hardware, software, and support services listed in attachment A, free of charge. Title to all equipment with restrictions as to use shall transfer to the Agency upon acceptance and installation of a complete System in satisfactory working order.
2. Provide written documentation to setup the System and operate the software. No on-site training is offered under this Agreement.
3. Provide ongoing technical assistance on the use of the System. NCMEC may make use of an outside vendor to provide such technical assistance.
4. Provide upgrades and enhancements to the software as may be required or advisable from time to time.
5. Provide a single point of contact (Project Manager) within NCMEC who shall have full responsibility and authority to coordinate and implement the provisions of this Cooperative Agreement.

The Agency agrees to:

1. Provide suitable space to safely house the equipment and ensure that all *LOCATER™* hardware, software, and documentation remain together for the purpose of sending and receiving information regarding missing children.
2. Ensure that the System remains turned on, on-line and connected to a secure electronic data center designated and operated by NCMEC. This is necessary to receive alert messages from other agencies that may send a missing child poster alert.
3. Comply with all reasonable requests from other law-enforcement agencies, as well as NCMEC, to aid in the search and recovery of missing children.

4. Assist non-participating agencies with creating missing child posters or transmitting missing child images to NCMEC for poster creation for NCMEC's web site.
5. Honor all reasonable requests from NCMEC to collect information regarding System usage necessary to evaluate the overall LOCATER™ program effectiveness and efficiency.
6. Maintain all equipment in good working condition and ensure the System is adequately supplied. The Agency is responsible for procuring all expendable items (office supplies) including but not limited to diskettes, printer paper and ink cartridges. The Agency is responsible for all repairs not covered in the three-year manufacturers' service agreements. The Agency is responsible for any and all repair expenses to the System that are the result of misuse, abuse, or negligence.
7. Ensure that no alterations are made to the System that would impair the System's capability to send and receive information regarding missing children. NCMEC cannot support self-installed hardware or software, nor can it be responsible for any negative repercussions that may result from adding such software or hardware, or substituting or replacing software or hardware that does not conform to System specifications.
8. Provide and fund, at the Agency's expense, a dedicated analog telephone line when dialup service is needed for access to NCMEC's secure electronic data center and for the transmission and receipt of posters. This will normally occur when the Agency must connect to the data center by a means other than through a statewide area network (WAN) or local area network (LAN) that connects to NLETS.
9. If agencies use LOCATER™ to send posters to facsimile machines through the broadcast fax service arranged by NCMEC, the Agency shall be

responsible for funding its use.

10. Select and designate several employees to operate the System, and allow them sufficient time to train so as to become proficient using LOCATER™.

A training Manual will be provided for learning to create, print, send and receive posters and information.

11. Provide an Agency primary point of contact to NCMEC who shall have the responsibility and authority to coordinate and implement the provisions of this Cooperative Agreement.

GENERAL PROVISIONS:

1. This Cooperative Agreement shall be in effect for 3 years from the date of execution. After the expiration of this Cooperative Agreement, NCMEC may reduce or eliminate support services listed in Attachment A.

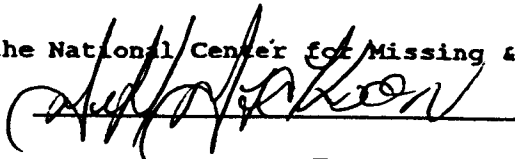

2. Either party may cancel this Cooperative Agreement on thirty days written notice. If this Cooperative Agreement is canceled, the Agency agrees to return all Systems and software components to NCMEC.

3. This Cooperative Agreement shall be governed and interpreted in accordance with the laws of the Commonwealth of Virginia without regard to principles of conflict of laws. Venue for actions in connection with, this Cooperative Agreement shall be proper only in a court of competent jurisdiction within the Commonwealth of Virginia.
